It's that easy and you have truly been supportive of our wheelchair sports programs.

The Confluence, like all such organizations, needs to develop sources of support and funding. The Confluence has worked diligently to provide sporting opportunities to our athletes. We charge no fees to any of our athletes. We try as hard as we can to be as supportive as we can of all our athletes not just with programs, practices, tournaments and travel but with equipment as well. We have steered clear of the coupon book, cookie/candy/ sales approach to funding. We have found a very cool way to help fund our adaptive sports programs.
